

RATIONALISATION OF PACKER SIZES

Dear Customer

Due to the rationalisation of the packer sizes by VEKA, the available sizes have changed from:

Old Offering:	15mm	30mm	50mm
New Offering:	15mm	30mm	45mm

Please [click](#) below for a drawing which outlines the rationalisation and provides fixing instructions:

Rationalised Packers offering and fixing

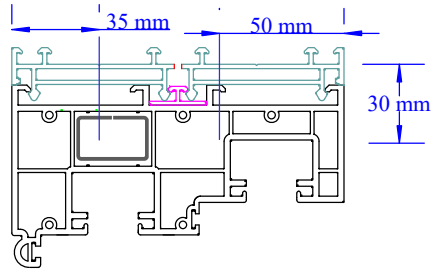

Although these can be clipped on for ease of installation, British Standards recommends that they should be screwed to the product at a maximum 300mm centre.

If you require any further information, please contact Ray Rabett, our Technical Director on **01376 510410** or e-mail ramon@masterframe.co.uk.

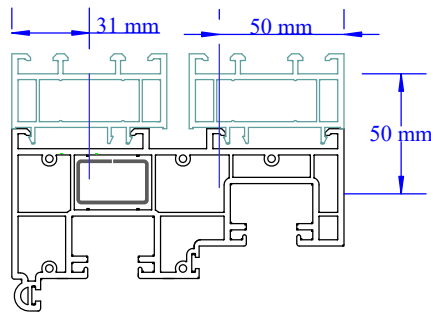

Best Regards
The Masterframe Team
